RULES.

1. These rules may be cited as "The Bengal Factories Rules, 1923."

Proviso (1).—When in any area the local Government has, by notification in the local official Gazette, under sub-section (5) of section 4, declared that the District Magistrate or an additional Inspector shall exercise all the powers of an Inspector under the Act, the word "Inspector" shall be held to include such District Magistrate or additional Inspector.

Proviso (2).—When in any area the local Government has declared, as aforesaid, that a District Magistrate or additional Inspector shall exercise certain powers of an Inspector, the word "Inspector" shall be held to include such District Magistrate or additional Inspector only in so far as any one or more of these rules are specified in the notification.

PART II.—ESTABLISHING A FACTORY.

3. **Advice by the Inspector.**—When it is notified to the Inspector that there is an intention to erect or establish a new factory, the Inspector may, and if the occupier so desires, shall, advise the occupier upon the suitability or otherwise of the occupier's design with regard to their convenience for the observance of the provisions of the Act and rules, but not upon any other subject in connection with the factory. Advice given under this rule shall not be deemed to exempt the occupier from remedying any defects which may later be subject to objection under the Act or the rules.

4. **Manager of factory.**—During any period for which no person has been designated as manager of a factory the occupier shall himself be deemed to be the manager of the factory for the purpose of these rules.

PART III.—REGISTRATION OF A FACTORY.

5. **Notified factory.**—When an Inspector receives a notice under section 33 (*1*) from any person occupying a factory, he shall, if he has not already done so, include such factory in his register.

6. **Unnotified factory.**—When an Inspector has reason to believe that any premises, situated within the local limits for which he is appointed and not already registered as a factory, ought to be so registered, he shall send to the occupier of the premises a notice intimating his intention of including such premises in his register of factories and shall furnish the occupier with a blank Form A. The occupier, whether protesting against the registration of his premises or not, shall return Form A correctly and completely filled to the Inspector within 15 days of the receipt thereof.

7. **Objection to registration.**—Any person served with a notice under rule 6 may, within 15 days of the receipt of such notice, forward to the Inspector a statement setting forth his objections to the registration of the premises as a factory. Such objections shall be accompanied by all the information required to complete Form A, if this has not already been furnished to the Inspector. The Inspector shall consider and dispose of such objections after making such inquiry as he may deem necessary, and shall then include such premises in his register of factories or not, as the case may be.

PART IV.—SAFETY.

8. **Structures.**—In every factory, all buildings, walls, chimneys, masts, bridges, tunnels, roads, galleries, floors, platforms, stagings, and all structures in common use, whether of a permanent or temporary character, shall be so designed, constructed and maintained as to involve no danger to human life or safety :

Provided that the Inspector shall not accept any such structure if it is designed or constructed so as to contravene the provisions of any other Act.

9. **Prime movers and machinery.**—In every factory, prime movers or other machinery, the steam boilers or other vessels subject to pressure, and all tanks and mains, together with the fittings of each of the aforesaid, shall be free from dangerous structural defects. They shall also be maintained sufficiently free from deterioration, and shall be operated (or attended) by persons of sufficient experience or skill, to satisfy the Inspector that there is no danger to human life or safety from them :

Provided that the Inspector shall not accept any of the objects mentioned if they are of such a nature as to contravene the provisions of any other Act.

10. **Railways and transport.**—In every factory, where there are within the precincts, railways, or other electrical or mechanical means of transport, such railways or means of transport shall be designed, maintained and operated in such a manner as to satisfy the Inspector that there is no danger to human life and safety from them :

Provided that the Inspector shall not accept any such railways or means of transport if they are so designed, maintained and operated as to contravene the provisions of any other Act.

11. **Smoking and use of naked lights.**—No person shall smoke or use a naked light or shall cause or permit such light to be used in the immediate vicinity of inflammable material in any factory ; and the Manager of every factory shall cause to be exhibited a notice in English and the vernacular prohibiting smoking or the use of naked lights, or both, in all places where they would be dangerous, or where the Inspector may require, and shall take all other reasonable precautions to ensure the observance of this rule.

12. **Lighting.**—Every part of every factory shall be sufficiently lighted during the whole of the periods employed persons are present in it, either by day or night, to avoid danger arising from imperfect visibility, having due regard to the nature of the place and of the work carried on therein, and to a standard which is approved by the Inspector.

13. **Fencing (general).**—In every factory, all moving parts of machinery shall be securely fenced, unless they are so situated that they are in the opinion of the Inspector incapable of causing injury to workers. Fencing so erected shall be designed so that it is impossible for any person to pass between the fencing and a moving part ; and also in such a manner as to give protection to a person oiling, cleaning, or otherwise attending to the machinery, and to all persons who may be in the neighbourhood of a moving part while it is in motion.

14. **Fencing (electrical).**—In every factory, all electrical circuits or parts of such, or any objects electrically connected with them, whether commonly or occasionally in an electrified condition and which by reason of their position could cause injury to the person, shall be protected adequately to the satisfaction of the Inspector either by fencing or insulation, or by both, in such a manner as to remove the danger of injury :

Provided that where automatic mechanism is installed for the purpose of immediately removing the electrification on the occurrence of a fault, such mechanism shall be taken into account by the Inspector when considering the adequacy or otherwise of the protection furnished ;

Provided also that in no case shall the Inspector accept as adequate any conditions or combination of conditions which are subject to objection under any other Act.

15. **Fencing (hoists).**—Every hoist and teagle, and every place where commonly material of sufficient weight is raised or lowered, shall, where practicable, be so fenced as to prevent personal injury in its descent.

16. **Fencing (pits).**—Every opening, in the ground or in a floor, which by reason of its depth, situation, construction or contents, could cause personal injury, shall be so fenced as to prevent such injury.

17. **Unsuitable fencing.**—When any plant, machinery, apparatus, or fittings in a factory are not safeguarded from danger to human life, as prescribed in rules 13, 14, 15 and 16, such plant, machinery, apparatus, or fittings shall be deemed not to be securely fenced within the meaning of section 18 (*1*).

18. **Alternatives to fencing.**—If in any case it is represented to the Inspector and agreed to by him in writing, that fencing would unduly obstruct a manufacturing process being carried on in the factory, or would be otherwise impracticable, such other protection shall be provided as the Inspector may prescribe instead of fencing.

19. **Failure to comply with fencing orders.**—If the manager of a factory has not complied with an order to fence or otherwise protect any machinery, after having been requested to do so in writing by an Inspector, the latter may, on a subsequent visit, serve on the manager an order in writing prohibiting the use of the machinery in question, until the orders have been carried out and passed by the Inspector as satisfactory.

PART V.—HEALTH AND SANITATION.

20. **Standard of space.**—In every factory, there shall be provided for each person employed at one time in any room a breathing space of at least 500 cubic feet. For the purpose of this calculation, no height above 15 feet from the floor of such room shall be taken into consideration.

21. **Ventilation.**—Every part of every factory where persons are employed shall be adequately ventilated to the approval of the Inspector.

22. **Injurious gases.**—In every factory where injurious, poisonous or asphyxiating gases, dust, or other impurities are used or are evolved for any process carried on in such factory the danger from such gases, dust, or other impurities shall be guarded against so far as is practicable.

23. **Prevention of lead poisoning.**—No person shall be employed in any factory in any operation involving the use of lead compounds, save under the following conditions, namely:—

(*a*) Where the dust or fume from a lead compound is produced in the process provision must be made for drawing the fume or dust away from the persons employed by means of an efficient exhaust draught, so contrived as to operate on the dust or fume as nearly as may be at its point of origin.

(*b*) The persons employed must undergo the prescribed medical examination at the prescribed intervals, and the prescribed record must be kept with regard to their health.

(*c*) No food, drink, or tobacco shall be brought into, or consumed in, any room in which the process is carried on, and no person shall be allowed to remain in any such room during meal times.

(*d*) Adequate protective clothing in a clean condition shall be provided by the employer and worn by the persons employed.

(*e*) Such suitable cloak room, mess room and washing accommodation, as may be prescribed, shall be provided for the use of the persons employed.

(*f*) The rooms in which the persons are employed, and all tools and apparatus used by them, shall be kept in a clean condition.

24. **Humidification.**—In every factory or part of a factory wherein the atmosphere is artificially humidified, whether intentionally or unintentionally, the humidification shall not be allowed to reach such a degree that it is injurious to the health of the persons employed.

25. **Drinking water.** In every factory a supply of water fit for drinking, and consisting of at least as many gallons as there are persons employed in the factory, shall be provided daily free of cost.

26. Such supply shall be derived either from a public or private supply of efficiently filtered drinking water, or from one or more wells or specially reserved tanks so situated as not to be polluted or contaminated by organic matter or other impurities.

27. Proper arrangements approved by the Inspector shall be made for maintaining in a drained and cleanly condition the area round the place where the drinking water is distributed.

28. (*1*) When the drinking water is obtained from an intermittent public water supply, each factory shall be provided with a storage of water of not less than one gallon per head of persons employed.

(2) The Inspector may, at any time, in order to satisfy himself that the water supplied is fit for drinking, take samples for analysis, and the cost of the analysis shall be borne by the owner of the factory.

29. **Limewashing.**—In every factory the inside surface of all walls of the rooms in which persons are employed, and all the ceilings or tops of such rooms (whether such walls, ceilings or tops be plastered or not), and all passages and staircases, shall be limewashed completely every 14 months, to date from the time of last limewashing.

30. The local Government may, by special order, exempt any class of factories or parts thereof from the provisions of rule 29, when they are of opinion that the said provisions are not necessary under clause (*a*) of section 9, or are, by reason of the special circumstances, inapplicable.

31. **Painting.**—All beams, rafters, doors and other wood-work in every factory shall, if not limewashed as required under rule 29, be painted or varnished at least once in five years and shall be kept clean.

32. **Cleanliness.**—No manager of a factory shall cause or allow any rubbish, filth or debris to be accumulated or to remain on any premises over which he has effective control, of such a nature or in such a manner that effluvia therefrom may arise within the factory.

33. No manager of a factory shall permit micturition or evacuation in any place in the factory other than a urinal, privy or latrine as the case may be.

34. **Latrines.** Every factory not exempted under the proviso to section 13 shall be provided with latrine accommodation.

35. All latrines and urinals within a factory shall be kept in a sanitary state, and shall be limewashed every two months.

36. All latrines in a factory shall be designed and constructed in a manner approved by the Chief Inspector or the Director of Public Health. Latrines shall also be situated, maintained and tended in a manner approved by the Inspector.

37. Every factory which is provided with hand-service latrines only and which has not been exempted under the proviso to section 13, shall be provided with latrine accommodation in a place detached from the other factory buildings, and on the following scale, viz:—

Where the number of persons employed at one time does not exceed 50.	3 seats.
Where the number of persons employed at one time exceeds 50.	1 additional seat for every 50 persons or any less number.

38. When females are employed in a factory separate latrines screened off from those for males, and marked in the vernacular in conspicuous letters "For females only" shall be provided. Those for males shall be similarly marked "For men only."

PART VI.—MEDICAL OFFICERS AND EXAMINATIONS.

39. **Powers of Certifying Surgeon.**—The certifying surgeon may authorize any registered practitioner to exercise, subject to the restrictions imposed by rule 51, the function assigned to the certifying surgeon by these rules, and may revoke such authority.

40. The duties of a certifying surgeon as such, and of a registered practitioner authorized under section 8 to exercise his functions (that is to say, an Examining Surgeon), shall comprise the examination of persons employed in a factory or desirous of being so employed, and the grant to them, when qualified, of such medical certificates as may be prescribed in the Act or the rules made thereunder, and the proper endorsement, suspension, or cancellation of such certificates.

41. **Certification fees.**—The occupier or manager of a factory or person examined shall not be chargeable with any fee or consideration of any kind for an examination made or certificate endorsed, suspended or cancelled by the certifying surgeon or examining surgeon, and shall offer no such fee or consideration:

Provided that a registered practitioner may be retained by the occupier of a factory as medical officer in consideration of a salary and that his duties to the occupier may include those of examining surgeon, but no examination made by him, or certificates granted or endorsed by him, shall be paid for separately by the occupier in any form whatever.

42. If an Inspector ascertains that there has been an infraction of rule 41, whether the certificates connected with the infraction are *bona fide* or not, he shall record the infraction and the circumstances in his report, and bring the same to the attention of the authority to which he is subordinate.

43. A certifying surgeon appointed under section 6, or any examining surgeon authorized by such surgeon under section 8, shall fix such place and such times as may be proper for the attendance of persons wishing to obtain certificates of age and physical fitness under sections 7 and 19B. Notice of the place and the times thus fixed shall be given to the manager of any factory concerned within the local limits for which such surgeon, or authorized examining surgeon, is appointed.

44. **Medical Certificates.** Every certifying surgeon shall keep a bound book containing forms in foil and counterfoil as reproduced in Form C in the Schedule appended to these rules, for use as general medical certificates, and a bound book containing forms in foil and counterfoil as reproduced in Form D for use as Scheduled Workers' Medical Certificates. Such forms shall in each case be numbered consecutively, and shall be printed on durable material.

45. Every certificate granted by a certifying surgeon under section 7 or 19B shall be prepared by filling up the foil and counterfoil, on both of which shall also be impressed the left thumb mark of the person in whose name the certificate is granted.

46. The certifying surgeon shall, when satisfied as to the correctness of the entries made therein, sign the foil and initial the counterfoil, and shall deliver the foil to the person at whose request the certificate was granted. The foil so delivered shall be the certificate granted under section 7 or section 19B as the case may be.

47. If the certifying surgeon refuses, for reasons to be stated in writing, to grant to any person a general medical certificate, or if he revokes such a certificate, granted by a certifying or examining surgeon, no fresh application for a certificate shall be made on behalf of such person until a period of three months has elapsed, unless the certifying surgeon otherwise gives permission in writing at the time of revoking or refusing to grant the certificate.

48. If a certifying surgeon refuses to grant to any person a Scheduled Worker's Medical Certificate, or if he suspends or revokes such a certificate granted by a certifying or examining surgeon, no further application shall be made by, or on behalf of, that person for the grant or restoration of a certificate until after such period not exceeding three months as the certifying surgeon may prescribe in writing.

49. Every certifying surgeon shall take the names and certificate numbers of all children who have been granted provisional certificates since his previous visit, and who are not produced at the time of his visit, and shall forward the same to the Inspector together with a notice of the action taken by him under rule 57.

50. If so required by a manager or occupier, or by a person, or by the parents of such person if he be a child, with respect to whom he has refused or revoked a general medical certificate, or refused, suspended, or revoked, a Scheduled Worker's Medical Certificate, the certifying surgeon shall state in writing his reasons for such refusal, suspension, or revocation.

51. Every registered practitioner authorized under rule 39 to act as an examining surgeon shall grant general medical certificates and Scheduled Worker's Medical Certificates in the manner described in rules 44, 45, 46, 47 and 48 with the proviso that such certificates shall have the word "Provisional" printed or stamped on the foil, and that the left thumb mark of the person in respect of whom the certificate is granted shall be taken on the counterfoil only; and provided that a certificate so granted shall lapse and become invalid on a date three months after it was granted, unless it is confirmed by the certifying surgeon or cancelled by him under rule 57.

52. A certificate issued by an examining surgeon shall be deemed to have been confirmed by the certifying surgeon, only when it has in his presence been impressed with the left thumb mark of the person in respect of whom it has been granted, and also when the counterfoil has been signed by the certifying surgeon, and he has placed his initials against the deletion of the word "Provisional."

The thumb mark taken on the foil should be identical with that previously taken on the counterfoil.

53. **Arrangements for medical examination.**—A certifying surgeon, within the local limits for which he is appointed, shall, unless otherwise directed by the local Government in rules made under the Act, visit every factory in which children are employed as follows:—

55. The certifying surgeon shall personally examine every child who is in possession of a provisional certificate granted under section 8, and shall, if satisfied as to its correctness, confirm it in the manner prescribed in rule 52 and return it to its owner.

56. If on examination the certifying surgeon is of opinion that the person examined is under the age of 12 years or is not fit for employment in a factory, he shall retain the certificate, write on it the word "Cancelled," and sign the same; and shall

then return the certificate with such remarks, if any, as he may think fit to make, to the examining surgeon who granted it.

57. **Cancellation of provisional certificates.** The certifying surgeon may cancel the provisional certificate granted to any child who is not produced, with effect from the date of his visit, or he may grant permission to the child to continue in employment for not more than 3 months, in accordance with section 8 of the Act.

58. **Certification of adults.** When the manager of a factory or an Inspector desires to establish that a person is of sufficient age and is otherwise fit to be employed in a factory for the periods permitted to adults, the certifying or examining surgeon shall on request examine the person, and, if satisfied, grant a general medical certificate in which the person's age and fitness shall be stated. Such certificates shall be liable to be cancelled in the manner described in rule 56.

59. **Certification of scheduled workers.**—The certifying surgeon at every visit shall personally examine every Scheduled Worker and every person presenting himself with the desire to become a Scheduled Worker, and shall confirm, grant, endorse, suspend, or cancel, certificates in respect of such persons in accordance with these rules and any medical regulations for Scheduled Workers for the time being in force under the Act.

86. **Date of incomplete returns.**—The manager or occupier of every factory shall furnish to the Inspector, in addition to the returns specified in the Act or in these rules, any returns which may be prescribed from time to time by the Government of India or by the local Government. PART IX.—INSPECTORS AND INSPECTION.

88. **Powers of inspectors.**—An Inspector may, together with such assistants, if any, as he may think fit to bring, enter any place within the area for which he is appointed, which is, or which he has reason to believe to be, used as a factory; and there make such examination of the premises, ways, works, machinery and plant, and of all registers or other prescribed records as may be necessary for the purposes of the Act; and he may take on the spot or otherwise such evidence of any persons as he may think necessary to examine.

89. In addition to the powers mentioned in rule 88, an Inspector may, subject to any restriction that may be notified by the Local Government with regard to him, exercise such other powers as may be necessary for carrying out the purposes of the Act.

90. **Obstructing an inspector.**—The manager or occupier of a factory shall not obstruct or permit to be obstructed by any person in the factory an Inspector in the exercise of his duty, and shall not fail to produce on demand by an Inspector any registers or other documents prescribed by these rules; and shall not conceal, or prevent or attempt to prevent, any person employed in the factory from appearing before, or being examined by, an Inspector; and shall not withhold such information as the Inspector may require under these rules: provided that no person in any factory shall be required to answer any question of, or to give any evidence to, an Inspector tending to criminate himself.

91. **Duties of an inspector.**—The Inspector shall give to the manager or occupier of every factory within the local limits for which he is appointed such orders as may be required to bring the factory and the persons therein employed into complete conformity with the Act and these rules. Such orders shall be confirmed in writing.

92. A Register of Factories compiled from information received on Form A shall be maintained by the Chief Inspector of Factories, and an extract giving details of factories for each district shall be sent on or before the 15th February of each year to the District Magistrates concerned. All changes in the list which may be made in pursuance of rules 5, 6, 7, 84 and 85 shall also be intimated to the District Magistrate as and when such changes are made.

93. Every Inspector subordinate to another Inspector shall furnish the latter with all such reports and information as may be necessary to him for the proper execution of his duties.

94 **Responsibilities of inspectors.**—The Chief Inspector shall be primarily responsible for the administration of the Act in all areas of the province. The extent of the responsibility of each other Inspector shall be in accordance with the powers conferred upon him as declared by notification under sub-section (*5*) of section 4. In order that he may satisfy himself that the provisions of the Act and of these rules are duly observed, an Inspector shall make such inspections of factories as may appear to be necessary to him, or to the authority to whom he is subordinate.

95. The Inspector shall, at each inspection of a factory, satisfy himself that the provisions of the Act and of these rules relating to the health and safety of the persons employed therein are duly observed; that the children employed in the factory have been duly certified and the prescribed register of children properly maintained; that the hours of employment of all persons working in the factory are properly and continuously recorded in the prescribed register; that the periodical stoppages of work and the prescribed holidays are granted; that the prescribed limits of hours of work are not exceeded; and that the prescribed abstracts and notice are duly maintained and fixed under section 36, and he shall note how far defects pointed out at previous inspections have been removed, and how far orders or recommendations previously issued have been complied with.

96. The Inspector at each inspection shall enquire, sufficiently to ascertain where the responsibility for their occurrence rests, into all accidents which may have taken place since the last inspection, and shall pass such orders or recommendations as may be proper for the prevention of such accidents. The Inspector shall report all such enquiries made by him, and a copy of the report shall be sent to the manager or occupier of the factory concerned.

97. **Report of inspection.**—As soon as practicable after inspection the Inspector shall report upon such conditions of the factory as are contrary to the Act or to these rules or as may seem to him to require comment. A copy of such report shall be sent to the manager or occupier.

98. Such extracts from the report of an Inspector made under rules 95, 96 and 97, as may be necessary for his information, shall be furnished to the District Magistrate by the Inspector, either directly, or through the Chief Inspector.

99. In the case of factories situated in places coming under the Municipal Act, if it appears that there has been a disregard of the provisions of any Municipal or other Local Act relating to sanitary arrangements, removal of objectionable rubbish, the cleaning and fencing of water tanks or the like matters, the Inspector shall, without prejudice to any action which he is empowered to take under the Act and rules, draw the attention of the Chairman of the Municipality or other local bodies to the breach of the sanitary regulations in question.

100. **Inspection by District Magistrate or additional Inspector.**—When in any area the District Magistrate or an additional Inspector exercising all or any of the powers of an Inspector makes an inspection, a copy of his note on the inspection shall be sent to the wholetime Inspector appointed for that area for such action as the latter may think necessary, as well as to the Manager if the Magistrate considers it desirable.

101. **Disuse of dangerous plant.**—Pending the execution of an order under rule 91 the Inspector may, when there is imminent danger to human life, prohibit the use of that part of the ways, works, machinery or plant to which the order relates.

102. **Inspector's records.**—Every Inspector shall keep a record of all orders and remarks made by him relating to each inspection.

103. **Inspector entitled to all relevant information.**—Any certificate, order, letter, report, or other document issued by an Inspector of Factories or other officer duly appointed in this behalf by the Government or by a Municipality or by other public body, with respect to the fitness or safety of the factory or any portion of its buildings, works, plant, machinery, apparatus, or ways, or with respect to the fitness of persons employed in the factory, shall be properly filed and exhibited by the manager or occupier to the Inspector on his demand.

104. A request by the Inspector for information necessary to establish—

(*a*) the observance or otherwise of any provision of the Act,

(*b*) the execution or observance of any order of an Inspector, or

(*c*) the condition, age, or history of any part of the factory, its plant, machinery apparatus or ways, so far as such may be an indication of safety or danger in the use of such objects,

if made during an inspection shall be complied with forthwith by the manager or occupier if the information is available in the factory; and if made by letter, shall be complied with by the manager or occupier within seven days from the date of receipt, or as soon afterwards as the information can be obtained.

105. **Appeal against an order of an Inspector.**—Any person on whom an Inspector has served one or more of the following orders may, within 14 days from the receipt of such order or orders, appeal in the form prescribed in rule 87 to the Commissioner. The appellate authority may confirm, modify or reverse the order or orders:—

(*a*) An order specifying the measures to be taken to remove conditions of danger which the Inspector considers to exist in contravention of rule 8, 9 or 10.

(*b*) An order to provide fencing or its equivalent, which the Inspector considers to be required under rule 13, 14, 15, 16, 17, 18, or 19.

(*c*) An order specifying the means of escape which the Inspector considers should be provided in case of fire as required by section 16 of the Act.

(*d*) An order specifying the measures to be taken to avoid any injurious effect of gases, dust or other impurities which the Inspector considers to be required by rule 22.

(*e*) An order specifying measures for such purifications of water used for artificial humidification of the atmosphere as the Inspector considers to be required by rule 24.

(*f*) An order specifying measures for the attainment of the standard of lighting which the Inspector considers required by rule 12.

(*g*) An order prohibiting the presence in a factory or in any part of a factory of children whose age is less than that at which they may be legally employed in a factory, which the Inspector considers to be required under section 19A.

106. When an appeal against the order of an Inspector is presented under rule 105, the appellate authority may, and if so requested by the appellant in his petition of appeal shall, hear the appeal with the aid of two assessors.

107. When assessors are to be employed in the hearing of an appeal against the order of an Inspector, the appellate authority shall call upon the body which is considered most representative of the industry concerned to appoint one of the assessors within a period of 14 days. When such assessor has been so appointed, the appellate authority shall appoint the other assessor; and shall then fix the place, day and time for

hearing the appeal, of which due notice shall be given to the appellant and to the Inspector against whose order the appeal has been presented, and shall call upon the two assessors to appear and assist in the hearing of the appeal at the appointed place and time :

Provided that if no assessor is appointed by the aforesaid body within the prescribed period, or if the assessor so appointed fails to attend at the appointed time and place, the appeal may be heard without such assessor, or, if the appellate authority thinks fit, without the aid of any assessor, unless the appellant at whose request the assessor was appointed objects to the hearing of the appeal.

108. An assessor appointed under rule 107 shall receive a fee of Rs. 32 for assisting in the hearing of the appeal. Such fees and travelling expenses shall be paid by the local Government, except that in cases wherein the assessors have been appointed at the request of an appellant against whom the appeal is decided wholly or partly, the appellate authority may direct that the fees and travelling expenses shall be paid wholly or in part by such appellant.

109. **Suspension of orders while under Appeal.**—When an appeal is presented against the order of an Inspector, unless it is an appeal under clause (*g*) of rule 105, the appellate authority may, on the application of the appellant, suspend the operation of the order of the Inspector pending the decision of the appeal ; but where no such suspension has been granted, the Inspector's orders shall be complied with notwithstanding that the appeal against it has been presented.

Draft notification.

In exercise of the powers conferred by clauses (*a*), (*b*) and (*c*) of section 138 of the Bengal Local Self-Government Act of 1885 (Bengal Act III of 1885), the Government of Bengal (Ministry of Local Self-Government) are pleased to make the following amendments in the notification, dated the 11th February 1886, and in the rules published thereunder :—

Amendments.

1. In the third line of the Bengal Government notification of the 11th February 1886, *after* the figures "138" *insert* the letter and brackets "(*a*)."

2. *After* rule 75 of the said rules *insert* the following, namely :—

"*Election of Chairman and Vice-Chairman.*

75A. When any orders under section 22 or sub-section (*1*) of section 29 of the Bengal Local Self-Government Act of 1885 have been received by a District Board, a special meeting of the Board, at which there shall be a quorum, shall be held for the election of a Chairman within one month,—

(*a*) in the case of a newly constituted or reconstituted District Board, from the date on which the names of the elected members and the names or official designation of the appointed members of the Board shall have been published in the *Calcutta Gazette*, and

(*b*) in any other case, from the date of the receipt by the Board of the said orders directing the election of a Chairman.

75B. (*1*) Whenever a meeting of a newly constituted or reconstituted District Board is held for the purpose of electing a Chairman, it shall be presided over by a member of the District Board who shall be elected by the members of the Board for conducting the election. The President in such cases must be duly proposed and seconded and must not be a candidate for the office of Chairman.

(*2*) A meeting of a District Board other than a newly constituted or reconstituted Board held for the purpose of electing a Chairman shall be presided over by the outgoing Chairman, or, in his absence, by the Vice-Chairman :

Provided that should the outgoing Chairman be himself a candidate for election, the meeting shall be presided over by the Vice-Chairman if he is not also a candidate for election :

Provided further that if there is no Chairman, and the Vice-Chairman is a candidate for election, and also, if the Chairman and Vice-Chairman be both candidates for election, the meeting shall be presided over by a member of the District Board other than the Chairman or Vice-Chairman, who shall be elected by the members of the Board for the purpose of conducting the election of the Chairman. The President in such case must be duly proposed and seconded and must not be a candidate for the office of Chairman.

75C. If only one member is proposed and seconded as President, he shall be deemed to be duly elected as such. If more than one member is proposed and seconded, the members present shall decide the election by vote. The votes may be taken by voices or by show of hands.

75D. If the votes for two or more members proposed as President of the meeting are equal, then the selection of one of them shall be decided by lot.

75E. The election of the Chairman of the District Board shall proceed as follows :—

(*a*) Any member present may propose a candidate either by name or by virtue of his office for the office of Chairman.

(*b*) No candidature shall be taken into consideration unless it has been seconded by a member other than the proposer.

(c) If one duly nominated candidate duly stands for election, the President shall forthwith declare such candidate to be elected.

(d) When the names of all the candidates proposed and seconded have been ascertained, the President shall hand to each member a voting paper in which will have been entered up the names of the candidates who have been duly nominated, and shall ask each member to record his vote by placing the mark X opposite the name of the candidate whom he prefers.

(e) The voting paper shall be invalid if the mark X is placed opposite the name of more than one candidate, or if it is so placed as to render it doubtful to which candidate such mark is intended to apply.

(f) When the voting has been completed, each member shall sign his voting paper and shall hand the same to the President. Without such signature the voting paper shall be invalid.

(g) The President shall have the right of participating in the election of the Chairman and shall similarly record his vote.

(h) The President, as soon as all the voting papers have been delivered to him, shall examine them in the meeting and read out the names of the candidates against which the mark X has been validly made, but shall not read out the names of the members voting. He shall then proceed to count the votes, having first rejected any voting paper which is invalid or which has been irregularly filled in, on which point his decision shall be final.

(i) When the counting of the votes has been completed, the President shall declare the candidate to whom the largest number of votes has been given to be elected Chairman.

(j) In the case of an equality of votes the President shall have a casting vote.

(k) Notwithstanding anything contained in rule 74 or in the Rules of Business adopted by any Board, it shall be sufficient at the election of a Chairman where more than one candidate is proposed and seconded to record in the proceedings the names of the persons proposing and seconding, and the number of persons voting for or against, each candidate and the name of the candidate duly elected.

(l) The President shall forthwith report the result of the election to the Commissioner for submission to Local Government for confirmation.

(m) Every election made under these rules shall be subject to the approval of Local Government.

(n) A quorum for the purpose of these rules shall consist of half the members of the District Board."

3. In rule 76 *delete* the words "and if the Lieutenant-Governor has so directed, shall also elect one of their number to be Chairman."

4. From the second sentence of the said rule *omit* the words "or Chairman" "or the Chairman" and "as the case may be"

5. *Re-number* rule 76 as sub-rule (*1*) of rule 76, and *insert* the following as sub-rule (*2*), namely:—

"(*2*) The election of the Vice-Chairman shall be made in the same manner as that of the Chairman."

GOVERNMENT OF INDIA.

DEPARTMENT OF INDUSTRIES AND LABOUR.

MINES REGULATIONS.

FROM

A. H. LEY, ESQ., C.I.E., I.C.S.,
Secretary to the Government of India,

TO

ALL LOCAL GOVERNMENTS AND ADMINISTRATIONS.

Dated Simla, the 22nd June 1923.

SUBJECT :—*Employment of women in mines and introduction of a system of shifts.*

SIR,

I am directed to address you with regard to two important questions in connection with the regulation of mines, namely, the employment of women in mines and the introduction of a system of working by shifts.

2. *The employment of women in mines.*—Section 20, sub-section (*2*) (*l*) of the Indian Mines Act, 1901, enables the Governor-General in Council or the Local Government to make rules prohibiting, restricting or regulating the employment of women below ground or on particular kinds of labour where such employment is attended by danger to the life, safety or health of such women. In the twenty-two years since the Act was passed no rules appear to have been made under this sub-section. It will be observed that rules could be made only if it could be proved in each case that the employment was attended by *danger* to life, safety or health and not because of objections based on general, social or hygienic considerations. When framing the Bill which has since become Act IV of 1923 and will come into force on the 1st July 1924, the Government of India considered carefully a proposal to prohibit forthwith the employment of women in mines by statute. They came to the conclusion that it would be inexpedient to make any such provision immediately effective in view of the fact that women form more than a third of the mining labour of the country and the immediate prohibition of their employment would very seriously disorganize a very important key industry. In the Bill introduced in the Legislative Assembly in September 1922, two provisions were inserted bearing on this point. In the first place it was proposed to prohibit the presence of all children below ground in a mine. This provision has since become law (section 26 of the Act of 1923), and will, it is anticipated, automatically involve the exclusion from mines of some proportion of the women who would otherwise work below ground. Secondly, in clause 30 (*d*) of the Bill it was proposed to give the Local Government power to prohibit, restrict or regulate the presence or employment in mines of women either above or below ground, or on particular kinds of labour. It will be noticed that this was a very much wider authority than either the Government of India or Local Governments possess under the Act of 1901. After the Bill was introduced there was considerable discussion on the subject in the press and elsewhere. The Jont Committee of the Indian Legislature to which the Bill was referred devoted particular attention to this point. In their report they made the following observations on the subject :—

"*Employment of women.*—The present law regarding the employment of women is contained in section 20 (2) (*l*) of Act VIII of 1901. This is a provision which enables rules to be made prohibiting, restricting or regulating the employment of women either below ground or on particular kinds of labour where the employment is attended by danger. The rule-making power vests

in the Governor-General in Council or the Local Government. The Bill referred to us in clause 30 (*d*) enables a Local Government, subject to control, to make rules prohibiting, restricting or regulating the presence or employment in mines of women, either above or below ground or on particular kinds of labour. It is, we think, generally realized that the absolute prohibition of the employment of women below ground in coal mines is a mere matter of time. It cannot be introduced at once because time must be given to employers to replace the labour of the 90,000 women who are at present working in mines. Some of us pressed for the inclusion of a statutory prohibition in the Bill with a provision that it should not come into force for five years after the passing of the Bill. We think, however, that this would involve such a radical alteration in the Bill that recirculation would be essential, and as we are reluctant to delay its passage, we think it desirable to attempt to effect a compromise. We have, in the first place, transferred the provision relating to the employment of women from clause 30 to clause 29 of the Bill, so that the power of control may vest in the Governor-General in Council. We have further re-drafted the provision so as to follow more closely the wording of the present law. We desire, however, to place on record a recommendation that the question of the employment of women below ground in mines should be taken up at a very early date with Local Governments with a view to prohibiting such employment either in all mines or in particular classes of mines at the end of a specified period, which we think should be about five years."

In accordance with the recommendation of the Joint Committee, section 29 (*j*) of the Act of 1923 empowers the Governor-General in Council "to make regulations.....for prohibiting, restricting or regulating the employment in mines or in any class of mines of women either below ground or on particular kinds of labour which are attended by danger to the life, safety or health of such women." I am to invite attention to the phraseology of the clause. The power conferred on the Government of India is not as wide as was proposed for Local Governments in the Bill as originally introduced, for, in the case of labour, *other than below ground*, the Government of India must be satisfied, as in the Act of 1901, that the labour of the women concerned is attended by danger to their life, safety or health.

3. In accordance with the suggestion made in the report of the Joint Committee and quoted above, I am to ask for the views of the Local Government on the question of framing regulations under clause (*j*) of section 29 of Act IV of 1923.

4. The question of the prohibition of the employment of women in mines was raised by the Secretary of State for India as long ago as 1890, when Lord Cross forwarded to the Government of India the proceedings of the Berlin Conference and suggested that Government should consider the advisability of legislating for the regulation of the employment of women in mines. The Government of India took the question up along with the general proposals for the regulation of mines to insure the health and saftey of the workers. The Bill framed in 1899, for the inspection and regulation of mines, contained a clause empowering an Inspector of Mines to prohibit the employment of women when such employment was dangerous, or unsuited, to female labour; and another clause empowering the Governor General in Council, and the Local Government, to make rules prohibiting, restricting or regulating the employment of women below ground or on particular kinds of labour. When the Bill was submitted to the Secretary of State for his approval, the Secretary of State noted that, while the Bill provided for the supervision and control of female labour, it did not prohibit the employment of women altogether; he warned the Government of India that, as the mining industry developed, it would become increasingly difficult to prohibit the employment of women, and suggested that the question of further safeguarding such employment should be carefully considered in Committee. When the Bill was circulated, the provisions regulating the employment of women aroused considerable criticism, and expression was given to the fear that if steps were taken to prevent their female relatives from going below ground with the male workers, the latter would themselves refuse to work in the mines. It was argued that the conditions of employment in Indian mines were fundamentally different from those in western countries; that Indian mine labour worked in family gangs, the women assisting their relatives and helping to swell their earnings and that, when proper precautions were taken to secure ventilation and to make the workings healthy, conditions in the mines were not unpleasant or prejudicial to health. When the Bill was finally considered in the legislature the provisions relating to the employment of women were altered into the form in which they appear in the Act of 1901.

5. Since that time, mining conditions have undergone a considerable change. Indian mining is no longer in its infancy. The mines are deeper, and the risk of danger is accentuated. There is a steadily increasing body of public opinion, which strongly deprecates the continued employment of women in mines. The Government of India accept the view of the Joint Committee of the Indian Legislature that the time has now come to consider seriously the prohibition of employment of women underground, particularly in coal mines, in which probably the conditions of work are hardest and open to most objection. As stated above, however, more than a third of the total

mining community are women, and although manual labour in mines is to some extent being supplanted by machine cutters, it is an undoubted fact that the sudden removal of female labour from underground work in mines would seriously dislocate the industry, and possibly compel a number of mines to close down. The only way of minimizing such a dislocation would be by giving the mine-managers sufficient notice of the intentions of Government, to enable them to secure and train the new labour which they will require, when the underground employment of women is prohibited.

6. I am now directed to ask that the Government of India may be favoured with the views of the Local Government on the general proposition that the employment of women in mines, or in particular classes of mines, should be prohibited at some specified time, *e.g.*, five years after the new Mines Act comes into force. I am in particular to enquire whether the Local Government would make the prohibition a general one, or applicable only to certain classes of mines, such as coal mines, and whether the period of grace suggested before the prohibition comes into effect, viz., five years, is suitable. The Government of India are provisionally of opinion that the prohibition should apply only to workings which extend beneath the superjacent ground; there would appear to be no greater objection to the employment of women above ground or in open quarries or shallow pits than to their employment on ordinary earth-work. But on this point too the Government of India would be glad of the views of the Local Government.

7. *The introduction of a system of shifts in coal mines.*—In the course of the discussions in the Indian Legislature on the clause enacted as section 23 of the new Indian Mines Act, which prescribes weekly limits of work for mine-labourers generally, it was contended in certain quarters that the prescription of a weekly limit did not go far enough; it was urged that in the coalfields miners worked sometimes for 18 hours a day, a practice which the prescription of a weekly limit would not stop. It was recognized, however, that under present conditions of mine-labour in the coalfields it was impracticable to insist on a daily limit of hours, although it might be possible, if due warning were given to the mine-owners, to introduce at some later date a system of shifts, which would automatically restrict the hours which an individual labourer could work in a single day. I am to note here that the Act of 1923 does not authorise the enforcement of a system of shifts and if any such system is to be made compulsory, fresh legislation will be necessary.

8. From the point of view of the proper and economic working of the collieries there is little doubt that the introduction of a syftem of shifts would be an advantage. Instead of relying as at present on a fluctuating labour supply, which works for perhaps three days and absent itself for the remainder of the week, the mine-manager would be assured of a constant supply of regular labour. This argument was urged by Mr. Treharne Rees in 1919 after a careful examination of mining methods in the Indian coalfields; and the principle of a shift system appears generally to have commended itself to the Coalfields Committee in 1920, though that Committee were of opinion that in view of the then existing labour conditions it would be premature to enforce such a system by statute. The crux of the difficulty is undoubtedly the effect which the introduction of fixed and limited hours of work would have on the labour population at the mines. Although it is an accepted fact that the restriction of daily working hours to a reasonable limit ordinarily makes for a more contented and efficient labour force, it is certain that in the peculiar conditions of mining labour in the coalfields a statutory restriction of this nature, imposed without due warning, would be unwelcome to the miners and might quite possibly drive a number of them away to other employment, where they would be free of statutory interference. If such was the case, the proposed legislation, while doing little good to the labourers themselves, would seriously affect the coal industry and, by curtailing the output of coal, be a source of grave embarrassment to other industries which depend on coal for their source of power.

9. The Government of India are, however, provisionally of opinion that any such dislocation of the labour supply could be minimized by giving the industry ample warning that a compulsory shift system would be introduced in coal mines on a fixed date some years hence. They are inclined to the view that, if as appears to them probable, the change in the methods of work in the coal mines which the introduction of a system of shifts would involve would be to the ultimate advantage at once of the mine-owners and of the labourers themselves, the introduction of this change is probably only a matter of time. It might be possible in the first instance to arrange the shifts in such a manner as to interfere as little as possible with existing mining practice. For instance, it has been suggested that, to commence with, the day might be divided into two shifts of twelve hours each (6 A.M. to 6 P.M. and 6 P.M. to 6 A.M.). The Government of India are inclined to the view that, as the labourers become used to the stricter regulation of hours which a shift system postulates, the time will come when a shorter working day with definite rest intervals will have to be imposed.

10. I am to ask for the views of the Local Government on this question, both generally and with particular regard to the following points:—

(*a*) whether the introduction of a compulsory system of shifts is practicable and advisable;

(*b*) what period of grace should be given before any legislation enforcing such a system should be imposed;

(c) what limit should be placed on the working day, and what particular system of shifts should be enforced;

(d) whether such legislation should apply to any mines other than coal mines;

(e) if applied only to coal mines, whether it should be enforced in all coalfields without exception. Attention is in this connection invited to paragraph 47 of the Report of the Coalfields Committee. The Government of India believe that the views of that Committee that any such system, if adopted at all, should be adopted universally, are likely to meet with general approval.

11. The Local Government will realize that this question of the introduction of a system of shifts is on a different footing from the question of prohibiting the employment of women, since the latter can be effected by regulations made under the Act of 1923, while the former would require legislation. In these circumstances, the Local Government may find it convenient to deal with the two questions independently, making each the subject of a separate reply.

I have the honour to be,

Sir,

Your most obidient servant,

A. H. LEY,

Secretary to the Government of India.

FINANCE DEPARTMENT.

NOTIFICATION.

No. 1522Mis.—The 14th July 1923.—The Governor in Council is pleased to make the following revised rules for the regulation of appointments in the clerical service of the Secretariat of the Government of Bengal and certain Government offices in future in supersession of all previous rules issued on the subject.

A. MARR,
Secretary to the Government of Bengal.

Rules for the regulation of appointments in the clerical service of the Secretariat of the Government of Bengal.

The clerical service of the Secretariat of the Government of Bengal is divided into two divisions—the Upper Division and the Lower Division.

UPPER DIVISION.

2. The Upper Division of the clerical service in the Secretariat is graded as follows:—

(*a*) Rupees 125 a month on probation for two years.
(*b*) After confirmation a time scale of pay, Rs. 150—10—250—15—400, with an efficiency bar at the stage of Rs. 250.
(*c*) Two selection grades, one of Rs. 325—25—400 alongside the above time scale, and another of Rs. 425—25—500 beyond it. The former selection grade is limited to 15 per cent. of the number in the Upper Division.

Special pay of Rs. 100 per mensem attaches to certain of the posts of Head Assistants.

3. Vacancies which occur in the Upper Division of each department will be filled by the following methods:—

(*a*) Direct recruitment of candidates by means of a competitive examination, which will be the same as that prescribed for the recruitment of the Bengal Civil Service (Executive) and other services in Bengal. The rules regulating the recruitment of these services will apply in the case of direct recruitment of the Upper Division of the Secretariat. These rules may be obtained on application from the Appointment Department of this Government.
(*b*) Selection of suitable Europeans or Eurasians. The educational attainments required of such candidates will be the Intermediate Examination, the Senior Cambridge Local Examination, the Cambridge Senior School Certificate Examination or a certificate that the candidate has passed the final examination of the advanced Commercial Classes. In this case preference will be given to graduates.
(*c*) Promotion from the Lower Division.

No clerk in the Lower Division, however, has, as a matter of right, any claim to promotion in the Upper Division, which will be given strictly according to merit.

One-third of the vacancies in the Upper Division will be filled up by method (*c*) after all the assistants who were recruited previous to April 1910 and are considered fit for promotion to the Upper Division have been provided for in that division. This rule will not, however, affect the appointment of Muhammadans under rule 14 or the appointment of Anglo-Indians to the special branch of the Political Department of this Government.

4. For the purpose of the selection of candidates under rule 3 (*b*), the Director of Public Instruction shall be asked to submit, in consultation with the authorities of European colleges and schools, the names of two or three candidates for each vacancy who possess the qualifications prescribed. From among these a selection will be made by the Secretaries at a meeting.

5. Candidates selected under rules 3 (*a*) and 3 (*b*) will be on probation for two years during which they will draw pay at the rate of Rs. 125 per month. Candidates selected under rule 3 (*c*) will on confirmation commence at Rs. 170 in the time scale of Rs. 150—10—250—15—400 for the Upper Division.

LOWER DIVISION.

6. The Lower Division of the clerical service of the Secretariat is graded as follows :—

(*a*) Rs. 60 a month on probation for two years.
(*b*) After confirmation a time scale of pay Rs. 65—4—145—145—150, with an efficiency bar at the stage of Rs. 105.
(*c*) Selection grade of Rs. 175—25—200 for clerks of special merit (limited to 10 per cent. of the Lower Division in each Department) who have passed at least three years on the maximum of the time scale.

The bar in the time scale will apply in the case of those clerks who are employed on purely routine work, such as despatcher, sorter, recorder, indexer, diarist, internal departmental clerk, file-keeper, etc.

7. The vacancies which occur in the Lower Division of the departments of the Secretariat will be filled up by means of a competitive examination. In special cases, as laid down in rules 13 and 14, appointments may be made by nomination.

8. The examination will be held in the month of August of each year. The arrangement for the examination will be made by the Central Examination Committee, Bengal, who will be assisted by paid examiners, and will act in communication with the Secretary to the Government of Bengal, Finance Department.

9. Candidates will be required to produce evidence that they have been through a complete secondary school course. In the case of Europeans and Anglo-Indians, applicants may be accepted who have obtained the elementary school certificate and have taken the supplementary commercial course prescribed by the European School Code. Every candidate must submit before the 15th July a written application for permission to appear at the examination.

10. The application under the last rule shall be in the form given in the margin, and must be accompanied by a treasury receipt for the sum of Rs. 10. This sum the candidate is required to pay into the treasury nearest his place of residence by way of examination fee and in no circumstances will this sum be refunded.

The report will contain the names of all the candidates in order of merit, and subject to their being adjudged fit on the results of the examination, the exact dates of their births and the number of marks obtained by each candidate in each subject. The candidates will then be offered, in order of merit, their choice of the various vacancies, and they will be appointed accordingly, subject to any arrangement which the Finance Department may find necessary in consultation with the department concerned, with special reference to rule 14. 16. Every probationer, before appointment, will be required to produce a statement showing to whom he is related or connected in the office in which he desires to serve. He must state the precise relationship or connection and certify that his statement, so far as he knows, is correct and complete. 14. For the convenience of vessels having ship's gunpowder, ammunition and fireworks on board, a properly constructed powder-boat shall always be in attendance off the magazine for landing and shipping such explosives. No charge will be made for the use of the boat for landing these ship's explosives, but the responsibility of the magazine-keeper in respect of the ship's explosives shall not commence until they are landed on the bank, and shall cease as soon as they are shipped on board the boat. Every precaution shall be taken to insure the safety of the explosives while in the boat, but the landing and shipping shall be at the risk of the vessel.

15. Vessels bringing consignments of trade explosives shall be allowed the use of the magazine powder-boat; but, should passing vessels require the use of the boat to put out or take in ship's explosives, such vessels shall be accommodated before the boat is used to discharge explosives brought as cargo. The landing of trade explosives, whether the station boats or private boats are employed, shall be at the risk and expense of the consignees of the explosives, and no liability shall be accepted for damage sustained while in course of landing or until the consignments are stored in the magazine.

16. Masters of vessels requiring the use of the magazine powder-boats shall hoist a flag at the fore-topmast head on coming in sight of the magazine, as a signal to the keeper to have the boat and coolies in attendance.

17. Masters of vessels shall mark the names of their respective vessels on the barrels and packages of ship's explosives previously to their being landed; if not marked, they shall not be received by the magazine powder-boat.

19. A clerk shall always be in attendance in the magazine powder-boat, and shall receive from the Master the declaration specified in rule 3.

20. If any vessel shall be prevented, by stress of weather or by being in distress, from landing or depositing any explosives which are in excess of the quantity prescribed by rule 1, such vessel may be permitted to come up to the lower limits of the port, but shall not proceed above Matteabrooj Ghat, and the Master of such vessel shall forthwith give notice to the Harbour Master of his having such explosives on board, and shall obey the Harbour Master's directions relating to the same.

21. Masters of outward-bound vessels, who may require ship's explosives for their outward voyage, shall not take such explosives on board in any part of the river above Budge-Budge, with the exception of a quantity not exceeding that prescribed in rule 1.

22. Masters of vessels, who have deposited ship's explosives at the magazine, shall inform the Harbour Master of the date on which the vessel will pass the magazine outward-bound, and, on receipt of this information, orders shall be forwarded to the magazine-keeper to place the said explosives in the magazine powder-boat, and to send it off at such time as will avoid any detention of the outward-bound vessel. Before taking the explosives on board, the receipt granted by the magazine-keeper shall be given up.

Explosive that may be landed at Prinsep's Ghat.

23. Such boats as are approved for this purpose by the Boat Surveyor to the Port Commissioners shall be permitted to take on board at the Moyapore Magazine and bring as far as Prinsep's Ghat, under cover of licenses to be granted by the Commissioner of Police in such form as may be prescribed by the Local Government, 500 lbs. of trade gunpowder which is the property of dealers and consignees. For each boat the dealers shall supply an armed guard (pensioned sepoy), whom the Commissioner of Police, Calcutta, will select.

26. The provisions of rules 23, 24 and 25 shall apply to Chinese crackers, provided that dealers in Chinese crackers shall not be required to employ an armed guard or to maintain a boat exclusively for the purpose of carrying Chinese crackers. The boats that are used for this purpose must be approved by the Boat Surveyor to the Port Commissioners.

Explosives that may be landed at the docks or jetties.

27. Explosives specified in the first division, class 6, of the Indian Explosives Rules, 1914, viz., safety cartridges, safety fuzes for blasting, railway fog-signals, and percussion caps which have been brought as part of a general cargo, and placed on board the vessels while lying in dock at ports of shipment, may be brought into port and landed at the docks or jetties in accordance with the regulations prescribed in that behalf in the Port Commissioners' by-laws.

The term "safety fuze" means a fuze for blasting which burns and does not explode, and which does not contain its own means of ignition, and which is of such strength and construction and contains an explosive in such quantity that the burning of such fuze will not communicate laterally with other like fuzes.

The expression "safety cartridges" means cartridges for small-arms of which the case can be extracted from the small-arm after firing, and which are so closed as to prevent any explosion in one cartridge being communicated to other cartridges. The term also includes rifle-calibre machine-gun cartridges if they are of the above description, whether they are for use with machine-guns having chambers identical with those of rifles, or with machine-guns which have special chambers.

The maximum diameter at which a small-arm or machine-gun cartridge can be accepted as "safety" is one inch.

28. Explosives shall not be landed within the port or at Moyapore or Diamond Harbour at any time when it is necessary to use artificial lights, and no explosives shall be landed, received into, or delivered from the magazine when it is necessary to use artificial lights.

29. Whoever contravenes any of the provisions of rule 2, 3, 4, 5, 6, 7, 8, 9, 10, 20, 21, 23, 25 or 28 shall be punished with fine which may extend to the amount mentioned in the proviso to section 5 (*3*) of the Indian Explosives Act, 1884 (IV of 1884).

THE GOVERNMENT COMMERCIAL INSTITUTE.

The Day Course.

1. There is a specialized Day Course extending over two years. Candidates who have passed the Matriculation Examination are eligible for admission. Others are admitted, provided they satisfy the Education Department, by passing a preliminary test examination of a similar standard, that they have sufficient general education to enable them to derive advantage from the teaching.

(*b*) Arithmetic, including Commercial and Mental Arithmetic.
(*c*) An Indian vernacular.
(*d*) Commercial Geography.

For an Indian vernacular, the Institute provides a thorough training in Bengali. Anglo-Indian candidates who have passed the Higher Standard examination in an Indian vernacular held by the Inspector of European Schools, Bengal, or who have passed the Lower standard examination in an Indian vernacular held by the Board of Examiners, will be further examined in the same vernacular in the following manner :—

(1) They will be examined orally to test their command of the vernacular for the ordinary purposes of business.

(2) They will have to translate into English a business letter dictated in the vernacular, and will be examined in both the dictation and translation.

3. **Optional Subjects.**—Shorthand and Typewriting—(A candidate may take up one or both, according to his option).

At the end of the two years' course the final examination is held towards the end of the April or the beginning of May. A candidate who fails in one of the five compulsory subjects is not eligible for a pass certificate. A candidate who fails in one subject only in the final examination may appear again in the final examination in the following year in that subject without attending the class. A candidate who fails in only two subjects in the final examination may appear in the final examination in the following year in those subjects, provided that he attends the classes in those subjects.

A candidate who attends a final examination to be examined in a subject in which he has previously failed must pass again in English, if English was not a subject in which he had failed, in order to obtain the diploma.
